

DaSCH: events and workflows

Rita Gautschy

Bern, October 20, 2023

DaSCH in a nutshell

- DaSCH - Swiss National Data and Service Center for the Humanities (<https://www.dasch.swiss/>)
- FAIR open data repository for long-term archiving and national infrastructure for Humanities' research data with focus on qualitative data
 - direct accessibility and searchability for humans and machines
 - persistent identifiers on object level (ARKs), precise citations, versioning
- national node of DARIAH (Digital Research Infrastructure for the Arts and Humanities)

Geschichte von der schönen Melusine

This resource belongs to the project [incunabula](#)

Created by Incunabula on Apr 14, 2011

Title **Geschichte von der schönen Melusine**

Creator **Thüring von Ringoltingen (1415-1483)**

Events / training / workshops / online resources

- DaSCHCon 2024 on Archaeology
- online resources
 - e.g. basics about the process of data modeling
https://ark.dasch.swiss/ark:/72163/1/0810/NUNXNz_1TVKaOemf67umWQL.20231003T130612762296845Z)
 - more to come in 2024 in different languages (English, German, French, [Italian?])
- planned: Helpdesk (2h per week; English, German, French)

Workflows

- please contact us before you submit your grant application if you consider DaSCH as repository for your data
- contact us during first year of the project to discuss data model, tools
- contact us about one year before the end of the project to prepare the data archiving process
 - prepare data model and data import script, testing on test server
 - choose licence, sign deposit agreement
 - data upload to production server
